

## Health & Wellness

### Medical Appointment

We respectfully request parents schedule children's medical appointments after school, whenever possible to minimize the student's time away from school. If appointments are necessary during the school day, we request parents come in and check out the student.

### Medication

Any medication brought to school must be in original containers and accompanied by the medication form from the student's physician, complete with instructions for administering the medication. The form must include the name of the medication, method, amount, and time schedules by which the medication should be taken. Forms can be obtained at the main office. The student must come to the Main Office to take the medication at the appropriate time.

### Illness and Injury

Students should not come to school when contagiously ill. If a student becomes ill or is injured while at school, a parent will be contacted to pick up the student. It is important that parents pick up their sick or injured child immediately for the care and comfort of the child and to maintain the health of other students.

The following symptoms are valid reasons to keep students at home:

- High Fever
- Nausea and Vomiting
- Evidence of a Communicable Disease
- Severe Headache or Severe Stomachache
- Spasms or Convulsions
- Any Severe Accident Including Deep Cuts or Bleeding
- Persistent Coughs, (not yet seen by a medical doctor- always follow a doctor's orders)
- Rash
- When required by a doctor
